

Pro2Expert Oxygen Analyzer

THE FUTURE OF ORBITAL WELDING

INNOVATIVE DESIGN MEETS ADVANCED TECHNOLOGY

Sophisticated charging management and high-quality components make the unit the market leader in its sector. industry. Threshold values can be changed by the user at any time without additional equipment. The Pro2Expert is equipped with a long-life, wear-resistant zirconium sensor and a sample gas hose with filter.

Ready-to-work in less than 10 seconds!

DESCRIPTION:

- - Innovative colour concept - visual & acoustic information about operating states
- - Coloured indication of low
- - remaining battery life
- - Working and charging via powerbank and
- - UBS-C connection possible
- - Battery life > 4 hours
- - Diffusion-tight special FPM gas sampling hose
- - Ready to measure in approx. 10 sec

TECHNICAL DATAS:

- - Weight: 440 g (without case)
- - Dimensions (L x W x H):
170 mm x 85 mm x 43 mm
- - Range of application: 1000 - 5 ppm
